When you have selected the family within your school community that you consider to be 'hard to reach' consider some of the key bullet points below:

- Why are/ were they less engaged or 'hard to reach'?
- What strategies did you use?
- What did/ didn't work?
- Consider contextual demographic information
- What could have been better? What will you do going forward?
- What communication strategies did you develop
- What potential barriers have or may arise?
