

TEACH
THE NATION
TO CODE

Free, one-day, virtual workshops in Programming and Web Development

Have you ever wanted to learn how to code? Or create your own website?

Kickstart your tech skills development and join us at Teach the Nation to Code.

These workshops are free, one day training sessions that are specifically designed to help you develop the essential skills needed within the digital and technology world. The workshops are delivered virtually by our industry experts in a way that is easy to understand, regardless of background and level of experience.

Upon completion of your chosen workshop, you will receive a **Certificate of Achievement and a Social Badge** to show off your newly acquired skills.

Workshops

Programming

26 February 2022

As the world enters further into the digital age, software programming skills have become highly desirable. This enlightening workshop will give you the confidence and basic knowledge to start learning how to code.

You will learn

- All the coding fundamentals with Python
- Core syntax and semantics in Python
- How to solve logical puzzles with Python code
- How to work with basic data structures
- And so much more!
