EVENT

Bradford schools, and their communities, are rising to unique educational challenges. Bringing together partners from a wide range of specialities, this free one-day conference aims to support school and curriculum leaders to provide solutions to overcome some of these challenges in Bradford schools. Many of our solutions start in the classroom, and are already being implemented in Bradford schools.

With a wide range of offerings from the curriculum hubs supporting Bradford schools, each session will provide insight and exemplification of best practice in schools.

The day will provide the opportunity to consider the needs of our schools in Bradford, but also to collaborate and learn from colleagues from across the region, and celebrate success.
