

# Science Leaders - Using the OFSTED science research review to move your curriculum towards excellence

## Friday 25th June 2021

### Summary

A facilitated peer network event for science leaders to work together to evaluate their curriculum against the OFSTED science research review findings. Facilitator support will be available to begin any redesign process following this evaluation.

### Morning Session

Unpicking the review: identifying how the review findings inform curriculum design

### Afternoon Session

Identifying the principles and actions required to develop own curriculum

**Facilitators:** Kate Walter and Emma Dobson

**Cost:** £75 for full or part day

**Venue:** University Academy Keighley, Green Head Rd, Keighley, BD20 6EB

This network event is suitable for:

- ▶ Heads of science in secondary
- ▶ Science subject leads in primary science
- ▶ Senior leaders who line manage science
- ▶ Science teachers involved in curriculum design
- ▶ Teacher training leads for science

### Outcomes

Participants will:

- ▶ become familiar with the key findings of the OFSTED science research review
- ▶ discuss implications with peers within and across phases
- ▶ be able to review their curriculum against the findings
- ▶ begin, with support if required, to develop their curriculum in the light of the evidence presented

### EARLY BIRD OFFER

Book by 28th May to be eligible for teacher release payments of £50 - discount code will be applied after booking and payable after attendance.
